GradFunding Newsletter – December Edition

Dear Graduate Students,

Congratulations on the end of the semester! This December edition covers both January and early February deadlines. Even though you might be focused on finals or planning for your Winter Break Edition, you can save this newsletter and peruse it when you have a chance. Have a great Winter Break, and we will see you in the spring (hopefully at our funding information sessions listed below).

General Funding Opportunities

The following descriptions are copied from each fellowship's website.

American Council of the Blind (ACB) Scholarships

The American Council of the Blind's (ACB) Scholarship Program was established in 1982. The American Council of the Blind (ACB) and the American Foundation for the Blind (AFB) have now partnered together to offer educational scholarships ranging from \$2,000 to \$7,500 for those attending a technical college or as an entering freshman, undergraduate or a graduate student. This program awards students with scholarships to help with post-secondary education financial needs such as tuition, fees, room and board and other additional costs associated with adaptive technology.

- *Deadline:* February 14, 2024
- *Citizenship:* Likely unrestricted, contact ACB
- *Website:* <https://www.acb.org/scholarships>

Boren Graduate Fellowship

Boren Fellowships, an initiative of the National Security Education Program, provide unique funding opportunities for U.S. graduate students to study less commonly taught languages in world regions critical to U.S. interests, and underrepresented in study abroad, including Africa, Asia, Central and Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. Boren Fellows represent a vital pool of highly motivated individuals who wish to work in the federal national security arena. In exchange for funding, Boren Fellows commit to working in the federal government for at least one year after graduation.

Property and Environmental Research Center Fellowships in Montana

PERC Graduate Fellowships offer the ideal opportunity for graduate and law students to research issues related to natural resources, innovation, property rights, and the environment. Graduate fellows spend three months at PERC over the summer in Bozeman, Montana, researching and writing a paper under the mentorship of a PERC Senior Fellow. Graduate Fellows have the opportunity to work in depth on a thesis or dissertation and fast track their research. This is a chance to receive feedback from experts in fields including economics, law, and environmental science. Graduate Fellows are expected to interact with other PERC scholars and fellows while in residence, and it is intended that the fellowship period be thought of as an opportunity to either establish or strengthen a continuing relationship with PERC. Office space is provided in a congenial, stimulating work environment in a locale of unparalleled natural beauty.

Dynamic Language Infrastructure-Doctoral Dissertation Research Improvement Grants

This program supports doctoral research focusing on building dynamic language infrastructure (DLI). Developing language infrastructure includes the documentation and preservations of languages in ways that articulate or advance linguistic theory, as well as the use of digitization techniques and novel computational methods that support and advance the study of language. Special emphasis is given to human languages that are endangered, i.e., understudied and at risk of falling out of use. The program supports the development of the next generation of researchers that contribute to language data management and archiving, and to the analysis of these archives to advance language infrastructure. Funding in this solicitation is in the form of doctoral dissertation research improvement grants (DDRIs) for up to 24 months and this solicitation addresses the preparation and evaluation of proposals for DDRI proposals.

- *Deadline:* February 15, 2024 and September 16, 2024
- *Citizenship:* Unrestricted
- *Website:* <https://new.nsf.gov/funding/opportunities/dynamic-language-infrastructure-doctoral>

Folger Institute Shakespeare Library Research Fellowships

The Folger's extraordinary collections are essential to understanding the humanities and their continued resonance and importance in our world. The Fellowships Program brings our rare and

historic art, books, costumes, manuscripts, periodicals, prints, and visual resources immediately to life. We put scholars, artists, performers, and practitioners into direct and sustained engagement with the collections, with our many innovative digital resources, and with one another. For scholars, the Folger Institute offers **long-term** (an academic year) and **short-term** (up to three months) research fellowships. **Artistic** research fellowships support artists working in all media whose work would benefit from significant research with early modern primary sources.

- *Deadline:* December 15, 2023 (Long-term), January 15, 2024 (Short-term)
- *Citizenship:* Unrestricted
- *Website:* <https://www.folger.edu/institute/fellowships>

Gerald R. Ford Presidential Library & Museum Travel Grants

The Gerald R. Ford Presidential Foundation awards grants of up to \$2,200 each in support of research in the holdings of the Gerald R. Ford Library. A grant defrays travel and living expenses of a research trip to the Ford Library. Overseas applicants are welcome to apply, but they will be responsible for the costs of travel between their home country and North America. The grants only cover travel within North America. Library collections focus on Federal policies, U.S. foreign relations, and national politics in the 1960s and 1970s. There are earlier and later materials depending upon your topic.

Hodges Foundation for Philosophical Orientation Doctoral Dissertation Fellowships

The Hodges Doctoral Dissertation Fellowships are designed to encourage and support original and significant studies exploring the complexities of human orientation. Orientation precedes everything else, all perceiving, thinking, and acting, and its conditions and structures may thus be explored from various disciplinary viewpoints and methodological approaches. The Hodges Foundation for Philosophical Orientation (HFPO) primarily supports innovative dissertations in the wider field of philosophical scholarship, but also outstanding projects in any academic field

(in the humanities, the social sciences, as well as the natural sciences, including biology, psychology, sociology, or astrophysics) if they make significant contributions to the philosophy of orientation. Projects may involve, but are not limited to, philosophical reorientations in history and today; the structures of human orientation in space and time; memory studies and brain research; the economic, political, communicative, religious, or ethical dimensions of decision-making; global reorientations connected with the Anthropocene and the digital transformations of the world. The HFPO is especially committed to supporting courageous reorientations in philosophy and beyond.

NYU Journalism Matthew Power Literary Reporting Award

The Matthew Power Literary Reporting Award is a grant of \$12,500 to support the work of a promising early-career nonfiction writer on a story that uncovers truths about the human condition. The award proceeds from the recognition that many important stories need to be reported from afar, and that publications do not always have the resources to send a writer where the story is. The money need not be used exclusively for travel, but we expect that most successful applications will include such expenses.

Phillips Fund for Native American Research

The Phillips Fund of the American Philosophical Society provides grants for research in Native American linguistics, ethnohistory, and the history of studies of Native Americans, in the continental United States and Canada. The grants are intended for such costs as travel, audio and video recordings, and consultants' fees. The committee distinguishes ethnohistory from contemporary ethnography as the study of cultures and cultural change through time. The committee prefers to support the work of younger scholars who have received the doctorate. Applications are also accepted from graduate students for research on master's theses or doctoral dissertations.

Society for the Advancement of Behavior Analysis (SABA) Sidney W. and Janet R. Bijou Grant

The Society for the Advancement of Behavior Analysis (SABA) welcomes proposals for research in child development from a behavior analytic perspective. This grant will be provided

to support doctoral student research designed to incorporate behavioral principles to advance our understanding of human development. Developmental concepts could include chronological and developmental age, neurobiological and genetic factors associated with development, or the impact of developmental trajectories on adult behavior. While intervention research could be appropriate, the primary research questions (independent variables) must be related to developmental and behavior analytic principles. Examples are changes in reinforcer preference with age, effectiveness of verbal behavior interventions in children of differing developmental ages, the development of second languages or bilingualism, equivalence relations, delay discounting, neurobiological correlates or interventions, the role of epigenetic influences, or environment-gene-behavior interactions.

Society for the Study of Social Problems (SSSP) Racial/Ethnic Minority Graduate Fellowship

The Society for the Study of Social Problems (SSSP), in keeping with its philosophy of active engagement with social problems, participation in social problem solutions, and advancement of knowledge through study, service and critical analysis, established the Racial/Ethnic Minority Graduate Scholarship at its annual meeting in August 1993. At the 2017 Annual Meeting, the Board of Directors voted to change the scholarship to a fellowship. The purpose of the fellowship is: To identify and support developing minority scholars who exemplify and give fresh voice to the SSSP history and commitment to scholar activism; To give renewed energy and wider lenses to diversity in scholarship; To increase the pool of minority social and behavioral scientists; and To establish a formal commitment to diversity through support of two minority doctoral students in the social and/or behavioral sciences inclusive of course work or dissertation research support who demonstrates a commitment, through his, her, or their scholarly examination, of any aspect of inequality, injustice, and oppression

American Fisheries Society - Steven Berkeley Marine Conservation Fellowship

This fellowship was created by American Fisheries Society (AFS) in 2007 to honor the memory of Steven Berkeley, a dedicated fisheries scientist with a passionate interest in integrating the fields of marine ecology, conservation biology, and fisheries science to improve fisheries management. Berkeley was a long-time member of AFS and a member of the first Board of Directors of the Fisheries Conservation Foundation. The fellowship comprises a competitively based \$15,000 award to a graduate student actively engaged in thesis research relevant to marine conservation. Research topics may address any aspect of conservation; a focus on fisheries issues is not required.

Human-Environmental and Geographical Sciences Program Doctoral Dissertation Research Improvement Award

The objective of the Human-Environment and Geographical Sciences Program is to support basic scientific research about the nature, causes and/or consequences of the spatial distribution of human activity and/or environmental processes across a range of scales. Recognizing the breadth of the field's contributions to science, the HEGS Program welcomes proposals for empirically grounded, theoretically engaged, and methodologically sophisticated, generalizable research in all sub-fields of geographical and spatial sciences. Because the National Science Foundation's mandate is to support basic scientific research, the NSF Human-Environment and Geographical Sciences program does not fund research that takes as its primary goal humanistic understanding or applied research. HEGS supported projects are expected to yield results that will enhance, expand, and transform fundamental geographical theory and methods, and that will have positive broader impacts that benefit society.

Mickey Leland Energy Fellowship (MLEF) Program

The U.S. Department of Energy's (DOE) Mickey Leland Energy Fellowship (MLEF) Program is a 10-week summer research internship for undergraduate and graduate students in STEM majors. Participants complete a cutting-edge research project at one of the Department's National Laboratories or DOE Headquarters in support of the Department's mission of limiting the environmental and climate impacts of fossil fuels and industrial processes while working to achieve net-zero emissions. The mission of the MLEF program is to strengthen a diverse pipeline of future STEM professionals and has provided mentored opportunities for over 1,000 students from across the nation for future careers in the STEM workforce. All eligible candidates are encouraged to apply. As a MLEF participant, you will train under the mentorship of scientists and engineers while completing a mission-focused research project. During the 10-week appointment, you will receive a bi-weekly stipend, and may be eligible for housing and travel assistance. You will also gain insight into how the Department of Energy is working toward an equitable and clean energy future.

Office of Polar Programs Postdoctoral Research Fellowships

The Office of Polar Programs (OPP) offers postdoctoral research fellowships (PRF) to provide opportunities for early career scientists, including social scientists, to accomplish one or more of the following goals: expand their work across traditional disciplinary lines, develop new partnerships connecting the polar regions and/or non-polar research communities, and provide entry to researchers who have traditionally had limited access to polar research resources, sites and facilities. During their tenure, Fellows will affiliate with a host research institution(s) and conduct research on topics supported by OPP.
