

Subject Line: Graduate Funding Opportunities

Dear Graduate Students,

We hope that you had a relaxing spring break! This month's newsletter includes late spring and early summer funding opportunities in a variety of fields. For those of you who might be interested in fellowships with deadlines in the fall (such as the National Science Foundation's Graduate Fellowship Research Program, among others), we encourage you to consider the Office of Fellowships' Summer Fellowship Application Development Program, which begins in mid-May. Please review all the information sessions and funding opportunities in this newsletter when you have a bit of time – hopefully, something will catch your interest!

Information Sessions

Information Session: Funding for Students Entering the Dissertation Stage

Students beginning the dissertation stage, and planning to graduate around Spring 2026, should begin applying for dissertation write-up awards now.

- *Date, time, and location:* Tuesday, March 26 from 9:30 – 10:30 am on Zoom.
- *Info session website:* <https://gradcenter.arizona.edu/funding/office-fellowships/workshop-and-information-sessions>

National Science Foundation Graduate Research Fellowship (NSF GRFP) Information Sessions

The purpose of the NSF GRFP is to help ensure the vitality and diversity of the scientific and engineering workforce in the United States. The program is a wonderful source of funding for graduate students—providing awardees with \$37,000 annually for three years, as well as additional benefits. These information sessions will help you get started on your application.

- *Dates, times, and locations:* Wednesday, April 17 from 12-1 pm; Wednesday, May 8 from 1 – 2 pm, and Wednesday, May 22 from 1 – 2 pm. All meetings will be held on Zoom.
- *Info session website:* <https://gradcenter.arizona.edu/funding/office-fellowships/workshop-and-information-sessions>
- *Citizenship:* Applicants must be U.S. citizens, nationals, or permanent residents. Please check other eligibility criteria as well.
- *Grant deadline:* Mid- to late October 2024, depending on field of study.

Overview of Summer Program & Finding Funding

This session will introduce the Office of Fellowship's Summer 2024 Fellowship Application Development Program. The Program offers deadlines and writing support to assist UA students in completing fellowship applications over the summer. Our summer program is free and online. This session will also briefly address resources for identifying an appropriate fellowship if needed.

- *Dates, times, and locations:* Wednesday, March 20 from 1 – 2 pm and Thursday, April 11 from 1 – 2 pm. Both sessions will be on Zoom.
- *Info session website:* <https://gradcenter.arizona.edu/funding/office-fellowships/workshop-and-information-sessions>

DAAD Information Session for Study in Germany

If you have any interest in research or study in Germany, the DAAD is an excellent source of funding. We will cover the various opportunities and timelines for applications. DAAD Fellowships provide support for study in Germany. Each year, the University of Arizona facilitates the selection of one priority candidate. Applicants from the UA are not

required to submit for priority candidacy; applying for the priority candidacy is optional, and students can apply individually to the DAAD's various programs.

- *Dates, times, and locations:* Tuesday, April 9 from 9:30 – 10:30 am, and Monday, April 22 from 1 – 2 pm. Both sessions will be on Zoom.
- *Info session website:* <https://gradcenter.arizona.edu/funding/office-fellowships/workshop-and-information-sessions>
- *Citizenship:* See opportunity. Note that for long-term research grants, “foreign nationals who live in the US/Canada by the time of application deadline must have gained their last degree in the US/Canada or will be gaining it before the beginning of their funding period.”

General Funding Opportunities

American Bus Association Academic Merit Scholarships in Transportation, Travel, and Tourism

The ABA Foundation mission is to support the motorcoach travel and tour industry with research and scholarships that benefit the ABA, policymakers and the public. Academic Merit Scholarships are open to both ABA and non-ABA Members. You must be a freshman, sophomore, junior, senior, or graduate student at an accredited university (4-year university/college or junior college). You must have a declared major or course of study relevant to the transportation, travel, and tourism industry. Transportation, travel, and tourism encompass a varying range of professions from accounting to hospitality management and everything in between. In other words, please apply rather than ruling yourself out because of your major. However, you will be required to submit a short essay on how your major or course of study is relevant to the transportation, travel, and tourism industries. You must maintain a minimum GPA of a 3.4 on a 4.0 scale.

German Historical Institute Doctoral and Postdoctoral Fellowships

The GHI awards short-term research fellowships to European and North American doctoral students as well as postdoctoral scholars to pursue research projects that draw upon primary sources principally located in North America. We are particularly interested in research projects that fit into the following fields: German and European history, The history of German-American relations, The role of Germany and the USA in international relations, North American history and Pan American, including Mexico, Central America, and the Caribbean (European doctoral and postdoctoral scholars only). The proposed research projects should make use of historical methods and engage with the relevant historiography. We especially invite applications from doctoral students and postdoctoral scholars who currently have no funding from their home institutions. The fellowships are usually granted for periods of one to five months but, in exceptional cases and depending on the availability of funds, they can be extended by one month. For doctoral students applying, ABD status is required before starting the fellowship.

- *Deadline:* April 1, 2024 and October 1, 2024
- *Citizenship:* Unspecified. Language suggests it is institution-based: “Applicants should be based at (or recent graduates of) a North American or European university or research institute.”

International Center for Responsible Gaming (ICRG) Dissertation Grants

The International Center for Responsible Gaming (ICRG) is a nonprofit 501(c)(3) organization that is dedicated to scientific research on gambling disorder and responsible gambling. The goal of the Dissertation Grants program is to support doctoral students by providing funding for the costs of dissertation research on gambling. Applications are encouraged from doctoral candidates in a variety of academic disciplines and programs. Eligible principal investigators (PIs) are doctoral students at the dissertation stage of training with the skills, knowledge and resources necessary to carry out the proposed research. The applicant must have an approved dissertation

proposal (at the time of award), show evidence of high academic performance in the sciences and a commitment to a career as an independent research scientist, or as an independent physician-scientist or other clinician-scientist (dual-degree training).

Laura Bassi Scholarships

The Laura Bassi Scholarship was established by Editing Press in 2018 with the aim of providing editorial assistance to postgraduates and junior academics whose research focuses on neglected topics of study, broadly construed, within their disciplines. The scholarships are open to every discipline and are awarded three times per year: December, April, and August. The value of the scholarships is remitted through editorial assistance as follows: Master's candidates: \$750; Doctoral candidates: \$2,500; Junior academics: \$500. These figures reflect the upper bracket of costs of editorial assistance for master's theses, doctoral dissertations, and academic journal articles, respectively. All currently enrolled master's and doctoral candidates are eligible to apply, as are academics in the first five years of their employment.

- *Deadline:* March 24, 2024, July 24, 2024 and November 24, 2024

National Geographic Explorer Grants

National Geographic offers several grants, with various entry points, to provide a dynamic pathway to join our community and engage with us. Whether you are a budding Explorer or a luminary in the field, each opportunity has unique criteria and benefits to ensure that our Explorers receive support and funding aligned to their specific needs and goals. A small number of grants are open to individuals beginning their National Geographic journey and those who are working on more advanced projects. Focus areas include Ocean, Land, Wildlife, Human History and Cultures, and Human Ingenuity.

Sci-Founder Fellowship (PhD graduates and postdocs) for Startups

The Sci-Founder Fellowship program will help scientists create a startup company of their own, invest \$400,000 per company, and mentor the founders. The ultimate goal is to get the teams to a stage where they can raise seed funding from investors on their own (we will introduce them to investors from our network). Sci-Founder will take equity in the formed entity but no ownership of any intellectual property. The IP will stay with the inventor/institution and is normally licensed from the institution to the formed company. We are not planning to go through a lengthy application process that involves business plan or pitch competitions, and the involvement of external mentors. We want to help scientists to get started right away to work on

their ideas by offering sufficient start capital and hands on mentorship on how to build their company the right way.

Hedgebrook Writers in Residence

The Writers in Residence Program is Hedgebrook's core program, supporting the fully-funded residencies of approximately 80 writers at the retreat each year. Hedgebrook's mission is to support visionary women-identified writers, 18 and older, whose stories and ideas shape our culture now and for generations to come. Writers must be women, which is inclusive of transgender women and female-identified individuals. Hedgebrook is on Whidbey Island, about thirty-five miles northwest of Seattle. Situated on 48 acres of forest and meadow facing Puget Sound, with a view of Mount Rainier, the retreat hosts writers from all over the world for residencies of two to four weeks, at no cost to the writer. This residency is open to women writers in all genres! Four writers are in residence at a time, each housed in a handcrafted cottage.

Wenner-Gren Dissertation Fieldwork Grants in Anthropology

Dissertation Fieldwork Grants are awarded to aid doctoral or thesis research. The program contributes to the Foundation's overall mission to support basic research in anthropology and to ensure that the discipline continues to be a source of vibrant and significant work that furthers our understanding of humanity's cultural and biological origins, development, and variation. The Foundation supports research that demonstrates a clear link to anthropological theory and promises to make a solid contribution to advancing these ideas. There is no preference for any methodology, research location, or subfield. The Foundation particularly welcomes proposals that employ a comparative perspective, can generate innovative approaches or ideas, and/or integrate two or more subfields.

CDC Epidemiology Elective Program (EEP) for Medical and Veterinary Students

The Centers for Disease Control and Prevention (CDC) seeks medical and veterinary students for the CDC Epidemiology Elective Program (EEP) to applied epidemiology, public health, and global health. Students learn by gaining hands-on experience and mentorship from CDC subject matter experts. This program offers 6- or 8-week rotations based at CDC sites, other federal sites, and state, Tribal, local, and territorial health departments. Assignments may involve conducting surveillance of a disease, injury, or other health condition; analyzing health data to identify new risk factors for disease; assisting CDC's EIS officers and other public health professionals in the field to investigate an outbreak; and contributing to CDC publications and guidelines of major public health importance.

Crop Science Society of America – Crop Science Graduate Student Scholarship

The scholarship is provided to a meritorious graduate student in crop science. The scholarship is supported by gifts from the Gerald O. Mott family to the Agronomic Science Foundation (ASA) and administered by the Crop Science Society of America (CSSA). Nominees will have completed at least one year of graduate work leading to an M.S. or Ph.D. degree in a field of emphasis within any of the CSSA divisions. Nominees are required to be CSSA or ASA members. The award allows self-nominations. In 2024, CSSA will award one scholarship at \$2,000.

- *Deadline:* March 19, 2024 (nominations initiated); March 26, 2024 (2 reference Letters and Final Nomination submission due)
- *Citizenship:* Unspecified

Department of Energy Office of Science Graduate Student Research (SCGSR) Program

The goal of the Office of Science Graduate Student Research (SCGSR) program is to prepare graduate students for science, technology, engineering, or mathematics (STEM) careers critically important to the DOE Office of Science mission, by providing graduate thesis research opportunities at DOE laboratories. The SCGSR program provides supplemental awards to outstanding U.S. graduate students to pursue part of their graduate thesis research at a DOE laboratory in areas that address scientific challenges central to the Office of Science mission. The research opportunity is expected to advance the graduate students' overall doctoral thesis while providing access to the expertise, resources, and capabilities available at the DOE laboratories. Applicants must be pursuing a Ph.D. in physics, chemistry, material sciences, biology (non-medical), mathematics, engineering, computer or computational sciences, or select areas of environmental sciences at an accredited college or university in the United States or its territories.

SHOT-NASA Fellowship

The Fellowships in Aerospace History are offered annually by the National Aeronautics Space Administration (NASA) to support significant scholarly research projects in aerospace history.

These fellowships grant the opportunity to engage in significant and sustained advanced research in all aspects of the history of aerospace from the earliest human interest in flight to the present, including cultural and intellectual history, economic history, history of law and public policy, and the history of science, engineering, and management. NASA provides funds to the American Historical Association and to the History of Science Society to allow both associations to award fellowships. Representatives from the AHA, HSS, and SHOT comprise the review committee. Applicants must possess a PhD in history or in a closely related field, or be enrolled as a student (having completed all coursework) in a doctoral degree-granting program. Preference will be given to scholars at early stages in their careers.

- *Deadline:* April 1, 2024
- *Citizenship:* U.S. citizen or permanent resident

UA Space Grant Graduate Fellowships

The UArizona NASA Space Grant Fellowship Program provides up to six graduate fellowships per year to students pursuing STEM degrees at the University of Arizona. The goals of the Fellowship Program are to encourage individuals to pursue graduate education in a STEM field, support NASA-related research happening at the University of Arizona, and increase science communication and outreach. Fellowships are competitively awarded and recognize students for their high achievements and academic merit. Space Grant Fellowships prioritize the ability to communicate and present scientific research to the public, an important skill in sharing NASA's research with our community. The UArizona Space Grant Program is offering two application tracks to receive a Space Grant Fellowship. These tracks include a "Research Track" and "Outreach Track", explained below. The UArizona Space Grant Program will award up to six fellowships in total. The number of awards for each track will depend on the number of applications received. In AY24-25, awards will include full in- and out-of-state tuition coverage and a stipend of at least \$22,838. Both research and outreach track applicants must obtain support from their home department and/or advisor to fund the required department cost-share for this award.

Postdoctoral Opportunities

Harvard Medical School Dean's Postdoctoral Fellowship Program

The Dean's Postdoctoral Fellowship (DPF) is a two-year research fellowship that was established in 2012 to nurture, advance, and retain a diverse scientific workforce who will continue to contribute to diversity through their ongoing academic and research scholarship. The

fellowship program prepares scientists from groups historically underrepresented in the basic and social sciences for careers in academia and other sectors. Fellows benefit from a highly innovative and creative research environment that emphasizes scientific rigor, collaboration, and the pursuit of excellence in science. The two-year fellowship provides funding in the amount of \$65,000/year, and DPF fellows are eligible for Harvard's generous benefits package. They receive additional opportunities for career enhancement, mentorship, seminars, workshops, and conferences, along with a robust support network, through the Scholars in Translational and Academic Research program.

Hunt Postdoctoral Fellowships in Writing – Wenner-Gren Foundation

Hunt Postdoctoral Fellowships (writing) provide up to \$40,000 towards the writing-up of already completed research. The fellowship is awarded to early career scholars, who frequently lack the time and resources they need to publish their work. Applicants should be no more than ten years beyond their PhD, with allowances made for periods of caregiving, and have a doctorate in anthropology or an equivalent field. A maximum of eight Hunt Postdoctoral Fellowships are awarded annually. By providing funds for scholars to devote themselves full-time to writing, the Foundation aims to enable a new generation of scholars to publish significant works that will impact the development of anthropology. You can apply regardless of your departmental or professional affiliation. However, funding decisions are made on the basis of the potential of the project to make a significant contribution to the field of theoretical anthropology.

John and Polly Sparks Early Career Grant for Psychologists Investigating Serious Emotional Disturbance (SED)

The John and Polly Sparks Early Career Grant supports early career psychologists conducting research in the area of early intervention and treatment for serious emotional disturbance in children. The John and Polly Sparks Foundation partnered with American Psychological Foundation (APF) to empower early career psychologists to produce scientifically-based research and programs that could provide models for broad-based applications across the country. Applicants must be an early career psychologist (no more than 10 years post-doctoral with a degree from an accredited university).

National Endowment for the Humanities Fellowships

The National Endowment for the Humanities (NEH), a federal agency in Washington, D.C., administers a fellowships program that provides financial support for individuals who wish to pursue scholarly research projects in the humanities. Projects should involve advanced research that is of value to scholars, general audiences, or both. Fellowships provide recipients time to conduct research or to produce books, monographs, peer-reviewed articles, e-books, digital materials, translations with annotations or a critical apparatus, or critical editions resulting from previous research. Projects may be at any stage of development. NEH invites research applications from scholars in all disciplines, and it encourages submissions from independent scholars and junior scholars.

- *Deadline:* April 10, 2024
- *Citizenship:* U.S. citizens and foreign nationals who have been living in the U.S. or its jurisdictions for at least the three years prior to the application deadline.

Oak Ridge Institute for Science and Education List of Postdocs in National Labs and Federal Research Facilities

If you are a recent doctoral graduate and would like to obtain additional training within your field of study, the Oak Ridge Institute for Science and Education (ORISE) offers postdoctoral fellowships and research opportunities at national laboratories and federal research facilities nationwide. For scientists who have recently completed their Ph.D. in a science-related discipline, a postdoc research fellowship can make an excellent start to a career at a DOE national laboratory or other federal research facility. ORISE sponsors postdoctoral research programs across the United States, many of which have immediate openings for qualified candidates.

Society for the Psychological Study of Social Issues (SPSSI) Grants-in-Aid Program (graduate students and postdocs)

The SPSSI Committee on Grants-in-Aid (GIA) wishes to support scientific research in social problem areas related to the basic interests and goals of SPSSI and particularly those that are not likely to receive support from traditional sources. The Committee especially encourages proposals involving (a) unique and timely research opportunities, (b) underrepresented institutions, graduate students, and junior scholars, (c) volunteer research teams, and (d) actual, not pilot, projects. Funding up to \$1000 is available for graduate student research. In the case of graduate students, strong preference is given to applications from students at the dissertation stage of their career. Funding up to \$2000 is available for research by SPSSI members who already have a Ph.D. Applicants can be at any stage of their academic work at any type of institution.

Thrasher Research Fund Early Career Award Program

The Fund recognizes that young investigators may find it difficult to remain in pediatric research because of a lack of funding. Therefore, the purpose of this program is to encourage the development of medical research in child health by awarding small grants to new researchers, helping them gain a foothold in this important area. The goal is to fund applicants who will go on to be independent investigators. The Fund will make up to 32 awards total with two funding cycles (16 awards each). The Fund is open to a wide variety of research topics. In the Early Career Award Program, the Fund is particularly interested in applicants that show great potential to impact that field of children's health through medical research.
